

**WE ADD VALUE
TO YOUR CEMENT**

VISTA CATASOFT C-88

A Multipurpose Cement Mill Additive

DESCRIPTION

VISTA CATASOFT C - 88 is a specialty cement additive synthesized at VISTA laboratories to assist cement industry in increasing mill output, reducing electricity cost , improving efficiency of grinding and reducing pack or silo set.

VISTA CATASOFT C- 88 is an organic complex ethoxylated in presence of cement strength enhancing chemicals and flow improvers through " SOL GEL" technology - FIRST of its kind in cement chemicals.

Its molecule contains cationic (positive) as well as negative charges in the form of anion in balanced proportion to reduce the surface energy force causing cohesion of freshly fractured cement particles due to vanderwaal force.

ADVANTAGES

- Increase in mill output and higher cement fineness.
- Significant Reduction in unit power input & Grinding cost.
- Increased Cement Flow ability and reduced pack set or Silo set resulting in lower handling cost & reduction in waste.
- Increase cement strength through all ages.
- Increased workability of Cement Mortar & Concrete.
- Increase life of Grinding media and linear plates i.e. decrease in maintenance cost.
- Improves IST & FST and controls residue.

SPECIFICATIONS

Form	Liquid
Colour	Hazy Aqua To Brown
Specific Gravity	1.10 -1.30
Chloride Content	Nil
pH Value	7 ± 1

It complies **ASTM C 465** as processing additive for cements.

DOSAGE

Typical dosage rate may vary from 0.03% - 0.1% by weight of cements including Portland, Portland- pozzolona or Portland - slag cements as the case may be.

PACKAGING

Available in 250 KG BARREL Or 1250 KG IBC.

WE PROVIDE

- Free installation of Dosing Pump.
- Assistance in procurement of Dosing Pump
- Technical support in quality improvement, power saving and performance of mill.

DOSING EQUIPMENT

VISTA CATASOFT C 88 should be accurately proportioned through a calibrated dosing system. Vista's technical service wing is ready to assist the customer

SHELF LIFE

Best Before 1 Year From Manufacturing Date.

Manufactured & Marketed By:

VISTA CHEMTECH PVT. LTD.

A SURANA GROUP OF INDUSTRIES
