

VISTA PUMP CARE

Ready To Use Powder For Lubrication Of Concrete Pump & Pumpline

DESCRIPTION:

Vista Pump Care is a dry polymer based powder concrete pump primer, easily miscible in water and is available in pre-measured pack. It is uniquely formulated to provide the concrete pumper with a cost effective method for improving the pump ability of hard to pump and/or harsh concrete and grout mixes.

USES:

Vista Pump Care contains water thickeners and lubricating agents. As it goes through the pipes, leaves a coat of water and lubricating agents and effectively wets all surfaces. So when concrete comes behind the **Vista Pump Care**, it does not loose water. The phenomenon of friction when the concrete passes through long pipelines get reduced and the lubrication effect of the compound makes concrete pass smoothly without chocking of the pump and pump line. It does not contain bentonite, chloride, nitrates, nitrites or other potentially corrosive materials and is compatible with all standard concrete admixtures.

ADVANTAGES:

- Increases ease and range of pump ability.
- Decreases wear on equipment.
- Decreases horsepower required for pumping.

ADVANTAGES:

- Reduces friction and line pressure.
- Improves motility and consolidation.
- Minimizes slump and air loss through pump lines.
- Easily introduced into pumping equipment. Ready to use only water to be used.

APPLICATION:

One pack of 200 gm is to be mixed with 40 ltrs of water in a vessel till greasy condition is achieved, further mix the solution to 100 ltrs of water for 3 - 5 minutes for complete dissolution and then pump the mixture through the pump line before pumping of concrete. The slurry produced from one pouch will be sufficient for pumping 60-70 meters length of pipeline.

PROPERTIES:

Aspect	White Granular Powder
Chloride Content	Nil, No added chloride
Safety Standards	Non toxic and non inflammable

SHELF LIFE:

24 months in sealed condition from the date of manufacture. Container should be protected from direct sunlight.

PACKING:

200 gm pouch pack.

Manufactured & Marketed By:
