

VISTA

VISTA RUSTSTOP POLYMER MODIFIED ANTI CORROSIVE COATING

DESCRIPTION :

Vista Ruststop is a polymer modified cementitious, anticorrosive protective coating.

USES :

- Anti corrosive and anti carbonation coating used for steel and concrete.
- Coating to prevent corrosion for all types of reinforcement.
- Corrosion protection for embedded corroded reinforcement at the time of repairing of damaged structure.

ADVANTAGE:

- Easy to use
- Excellent bonding and adhesion to steel and concrete.

APPLICATION:

Before application of Vista Ruststop, the substrates are to be properly cleaned. One part Ruststop and two parts fresh cement are to be mixed then apply. The first coat is to be applied with a medium stiff brush. The second coat is to be applied after 2-3 hours. On air curing for 2-3 hours after application of the second coat, mortar, plaster or concrete may be done.

PROPERTIES:

Aspect	- Whitish liquid
Pot Life	30 mins. After mixing
Bond Strength	1.2 N/mn ² (approx) in case of steel 2.0 N/mn ² (approx) in case of concrete
Coverage	3 kg mixed material will give coverage of 4 Sq.Mtr on steel surface.

VISTA

SHELF LIFE:

12 months from the date of manufacture in unopened condition. Container should be stored in a cool and dry place away from direct sunlight.

PACKING:

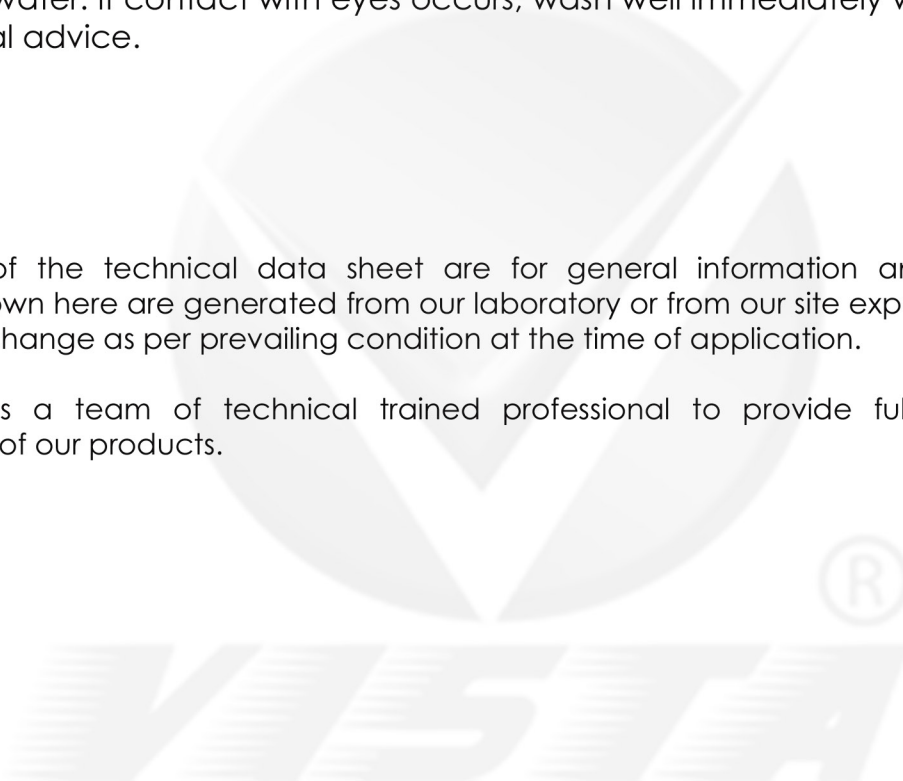

1kg, 5 kg and 20 kg .

HANDLING PRECAUTION:

Vista Ruststop is non –Toxic and Ingestion is to be avoided. Any splashes to the skin must be washed with water. If contact with eyes occurs, wash well immediately with water and seek medical advice.

NOTE :

- The contents of the technical data sheet are for general information and guideline only. Results shown here are generated from our laboratory or from our site experiences. This behavior may change as per prevailing condition at the time of application.
- VISTA maintains a team of technical trained professional to provide full support in regards to any of our products.
